Tyson Pond

September 16, 2019

All networks can be found through the Index of Complex Networks. The query we used was “Social networks, min number of edges: 1,000, max number of edges: 100,000”.

Table 1: Descriptive statistics for (22) social networks

Network	Size			$\langle k \rangle$	Degree			Clustering	
	$ V $	$ E $	Density		$\max k_i$	$\min k_i$	r	C_Δ	$\langle C_i \rangle$
Web of Trust	10680	24316	0.0004	4.6	205	1	0.24	0.38	0.27
